Technologies

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS, Redux Toolkit, Zustand, Tanstack/React Query, React-native

Backend: Node.js, Express.js, Socket.io

Database: MongoDB, PostgreSQL

Languages, Tools and others: C, C++, Data Structures & Algorithms, Git, GitHub, VS Code, Postman

Experience

Web Developer Intern, WebarcLight

Sep 2025 – Mar 2026

Remote

- Worked on backend development for a self-growth tracking mobile application by building RESTful APIs and designing PostgreSQL database schemas for users, posts, goal management etc. Collaborated with frontend developers to integrate APIs and ensure smooth data flow across the application using Node.js and Express.js.
- Worked as a frontend developer on a loan management platform, contributing to the CRM module used for customer and loan data handling. Built responsive and reusable UI components using React.js to manage customer records, loan details, internal operations and workflow screens. Collaborated with backend developers to integrate APIs and ensure smooth user experience.

Projects

MoviGo - Movie Booking app

[\[GitHub\]](#) [\[Live Link\]](#)

React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Cloudinary, Stripe

- Developed a full-stack movie ticket booking platform featuring public pages, admin dashboard, and interactive seat selection system.
- Implemented secure JWT-based authentication, REST APIs, and advanced movie management with Cloudinary file uploads, rich metadata handling, search, filters, and pagination.
- Built a booking engine with real-time seat availability, conflict detection, dynamic pricing (standard/recliner), and integrated Stripe payment flow with booking history and validation.

Real-Time Chat App

[\[GitHub\]](#) [\[Live Link\]](#)

React.js, Tailwind CSS, Zustand, Socket.io, Node.js, Express.js, MongoDB

- Developed a real-time chat application with user authentication, direct & group messaging, file uploads, and live updates using Socket.io.
- Designed a responsive UI using Tailwind CSS and ShadCN UI components for enhanced user experience, managed client-side state with Zustand.
- Ensured secure communication using JWT-based authentication.

Flavoro - Food Ordering App

[\[GitHub\]](#) [\[Live Link\]](#)

React.js, Tailwind CSS, Redux Toolkit, React Router

- Developed a responsive food ordering platform with category-based browsing and live search functionality.
- Integrated shopping cart with item add/remove features and protected checkout flow.
- Used Redux Toolkit for global state management (cart, category, search).

Education

Graphic Era Hill University, B.Tech in Computer Science and Engineering

Aug 2022 – July 2026

Dehradun, Uttarakhand

- Coursework: Data Structures, DBMS, Operating Systems, Computer Networks
