Experience

Web Developer Intern, Webarclight

Sep 2025 – Mar 2026

Remote

- Built RESTful APIs and designed PostgreSQL schemas for a self-growth tracking app (users, posts, goals); integrated with frontend team using Node.js and Express.js.
- Developed reusable React.js UI components for a loan management CRM, handling customer records, loan details, and workflow screens; integrated backend APIs for smooth data flow.

Projects

MoviGo - Movie Booking app

[\[GitHub\]](#) [\[Live Link\]](#)

React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Cloudinary, Stripe

- Developed a full-stack movie ticket booking platform featuring public pages, admin dashboard, and interactive seat selection system.
- Implemented secure JWT-based authentication, REST APIs, and advanced movie management with Cloudinary file uploads, rich metadata handling, search, filters, and pagination.
- Built a booking engine with real-time seat availability, conflict detection, dynamic pricing (standard/recliner), and integrated Stripe payment flow with booking history and validation.

Real-Time Chat App

[\[GitHub\]](#) [\[Live Link\]](#)

React.js, Tailwind CSS, Zustand, Socket.io, Node.js, Express.js, MongoDB

- Developed a real-time chat application with user authentication, direct & group messaging, file uploads, and live updates using Socket.io.
- Built responsive UI with Tailwind CSS and ShadCN; managed client-side state with Zustand and secured communication via JWT authentication.

Flavoro - Food Ordering App

[\[GitHub\]](#) [\[Live Link\]](#)

React.js, Tailwind CSS, Redux Toolkit, React Router

- Built a responsive food ordering platform with category browsing, live search, and a cart with add/remove and protected checkout; used Redux Toolkit for global state (cart, category, search).

Education

Graphic Era Hill University, B.Tech in Computer Science and Engineering

Aug 2022 – June 2026

Dehradun, Uttarakhand

- Coursework: C/C++, Data Structures, DBMS, Operating Systems, Computer Networks
